JUDIT LEHOCZKI

FULL STACK SOFTWARE DEVELOPER

I recently graduated from the Northcoders coding bootcamp. I am:

- a quick learner and most motivated by new challenges. Within two weeks I learnt to use MongoDB, GraphQL and Flutter to build my first mobile app as my graduation project.
- experienced in working remotely while adopting agile practices such as pair-programming, scrum methods, test-driven and iterative development.
- a proactive team player with strong work ethic.

My strong problem solving skills with excellent attention to detail come from my 12 years accountancy experience.

I am now looking for new challenges at an organisation where personal development and career progression is a focus.

TECHNICAL SKILLS

- Languages: JavaScript, Dart
- Backend: Node, Express, MongoDB, Mongoose, GraphQL, SQL, PostgreSQL, Knex
- Frontend: React, Flutter, HTML, CSS, Styled Components, Bootstrap, Bulma, jQuery
- Test Suites: Supertest, Mocha, Chai, Sinon, Jest

EDUCATION & CERTIFICATES

FREECODECAMP
JavaScript Algorithms and Data Structures
Responsive Web Design

ACCA (part-qualified)

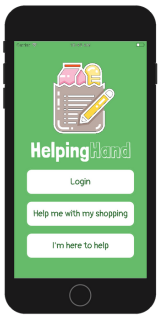
BUDAPEST BUSINESS SCHOOL
Bachelor of Economics

WORK EXPERIENCE

FULL STACK SOFTWARE DEVELOPER

Northcoders | Jan 2020 - Apr 2020
A 12-weeks coding bootcamp in Manchester.

HELPING HAND



Help the vulnerable by doing their shopping for them!
A full stack mobile application for both iOS and Android. Inspired by the coronavirus situation, people at higher risk can send in their shopping list and volunteers who live within the same area can pick them up and help out. My graduation project developed with two other coders 100% remotely due to the lockdown situation with agile practices.

- Backend: a GraphQL server to a MongoDB database - Node.js, GraphQL, Express, MongoDB, Mongoose, Nodemon, Google APIs
  - Hosted: http://helping-hand-kjc.herokuapp.com/
  - Repo: https://github.com/juditlehoczki/helping-hand-backend
- Frontend: Flutter, Firebase for image storage, image taking and cropping libraries
  - Demo Video: will be available after my graduation on 24th April
- Test Suite: Supertest, Mocha, Chai

THE DAILY NEWS

A Reddit-like news aggregation board with articles by topic/author, functionality to comment, vote up/down and post new articles. Made with two switchable themes.

- Backend: a RESTful API server to an SQL database - Node.js, Express, Knex, PostgreSQL, Nodemon
  - Hosted: https://press-jl.herokuapp.com/api
  - Repo: https://github.com/juditlehoczki/news-backend
- Frontend: React, Axios, Reach Router, Moment, Styled-Components
  - Hosted: https://press-jl.netlify.com/
  - Repo: https://github.com/juditlehoczki/news-frontend
- Test Suite: Supertest, Mocha, Chai

VOLUNTEERING

TUTOR ASSISTANT
Introduction To Programming course
Northcoders | Feb 2020

FUNDRAISER - 100-MILE BIKE RIDE
The Christie | Sep 2019

EXCEL TUTOR
Hilton MD | Jul-Nov 2015

PERSONAL ACHIEVEMENTS

- Changing careers in my thirties.
- Building a career as an accountant in a different country.
- Doing a 100-mile bike ride after only 5 months training and no cycling past.

PERSONAL INTEREST

When I'm not working hard, you'll find me outside on my bike and travelling to new places, or inside writing blogs about my journey into software development, learning new technologies, playing computer games, binge-watching Netflix series or doing some arts & crafts...

JUDIT LEHOCZKI

FULL STACK SOFTWARE DEVELOPER
